

Grilled Cheese Sandwich Recipe

8 slices of Sourdough Bread

6 - 7 oz. Smoked Cheddar Cheese sliced

1-2 sticks of Butter

Makes 4 sandwiches

Butter all 8 slices of sourdough bread. Add smoked cheddar cheese slices to 4 of the sourdough bread slices and top with the other 4 slices of sourdough bread to make 4 sandwiches. Generously butter both outer sides of the sandwiches.

Melt 1 tablespoon of butter in a pan over medium heat and swirl the butter to evenly coat the pan. Add in one of the buttered sandwiches. Flip the sandwich frequently to prevent scorching. If you're using a larger pan and making more than one sandwich at a time, add more butter.

They're ready when both sides are browned and the cheese is melted.

Enjoy!
